Full job description

Job Summary

As part of AECOMS increasing investment in Digital Engineering, we are looking to scale the adoption of OpenRoads further across our business. We are seeking an experienced Designer with a strong interest in Digital Engineering to compliment the existing capabilities of one of Industries best supported teams. Are you an OpenRoads 'gun'?

- **Lead and undertake technically challenging project work**
- **Build collaborative relationships with internal and external stakeholders**
- **Seeking an Advanced OpenRoads designer & ORD administration**
- **Experience in OpenRoads customisation & generative components**

The Role

You will have the opportunity to lead design on complex large scale projects that deliver high standard outcomes for AECOM clients, develop depth of OpenRoads capability across team, manage development and implementation of workspaces, libraries (Generative components, Civil cells etc), and be a member of the ANZ OpenRoads Technical practice network.

To be successful in this role, candidates will have leadership experience in

running the design component of projects, the ability to guide teams through the design of technically sound models, federating as appropriate to collaborate with multi-discipline teams. Strong data management skills along with effective communication are essential as is the management of projects and project staff.

Minimum Requirements

About You

- Lead project teams in technical development and coordination of tasks
- Production of OpenRoads road design models to appropriate standards and presentation
- Experienced in the concepts of Digital Engineering and Information modelling
- Additionally, 12D, Autocad, Navisworks, Infracore or Concept Station, Projectwise and past MX or Inroads experience would be viewed as beneficial
- Demonstrated experience in managing complex projects and meeting delivery requirements
- The ability to communicate at all levels
- Diploma or Advanced Diploma in Civil Engineering Design or similar qualification

Preferred Qualifications

- Diploma or Advanced Diploma in Civil Engineering Design or similar qualification

What We Offer

We will give you the flexibility you need to do your best work with hybrid work options. Whether you're working from an AECOM office, remote location or at a client site, you will be working in a dynamic environment where your integrity, entrepreneurial spirit and pioneering mindset are championed.

You will help us foster a culture of equity, diversity and inclusion – a safe and respectful workplace, where we invite everyone to bring their whole selves to work using their unique talents, backgrounds and expertise to create transformational outcomes for our clients.

We will encourage you to grow and develop your career with us through our technical and professional development programs and diverse career opportunities. We believe in leadership at all levels. No matter where you sit in

the organization you can make a lasting impact on the projects you work on, the teams and committees you join and our business.

We offer competitive pay and benefits, well-being programs to support you and your family, and the development resources you need to advance your career.

When you join us, you will connect and collaborate with a global network of experts – planners, designers, engineers, scientists, consultants, program and construction managers – leading the change toward a more sustainable and equitable future. Join us and let's get started.

As an Equal Opportunity Employer, we believe in each person's potential, and we'll help you reach yours.
